The Teacher Educator Interest Section (TEIS) of TESOL, Int'l invites submissions for the February 2022 issue of our IS newsletter, focused on our ongoing theme of *Teacher Leadership*. We welcome submissions from teacher candidates' voices, new teachers, teacher educators, mentor teachers, field supervisors--all of us involved in TESOL teacher education. We especially encourage contributions from around the globe, and new as well as seasoned authors, to come together in this incredibly challenging moment to support each other and build knowledge together.

### **Articles**

Articles should be between 800 and 1,750 words and may address program descriptions, course descriptions, best practices, teaching techniques, or any topic of interest to ESOL teacher educators that pertains to teacher leadership.

### **Book Reviews**

Book reviews of between 300 and 500 words should provide the reviewer's analysis of books that are relevant to the practice and theory of teacher leadership in teacher education.

### **TEIS Voices**

TEIS voices are paragraphs of approximately 100 words that introduce a teacher educator's work or program. TEIS voices serve as a networking tool as well as an opportunity to shine a spotlight on a teacher, program, or country we might not otherwise read about.
