The 3 C's of Transcript Evaluation: Compassion, Consistency, and Compliance

1hr LIVE Webinar

LEARN HOW TO EVALUATE FOREIGN TRANSCRIPTS FOR SECONDARY STUDENTS

An intentional and consistent evaluation procedure can avoid costly legal implications for your school district. As advocates of English Learners, we believe that when students receive transfer credits for courses taken outside of the US, a graduation pathway is forged. Participants will receive a comparative education toolkit (i.e., presentation) that includes real-world case studies, an overview of several education systems, grading scales, and recommended courses and grade-level placement for students based on English proficiency and foreign credentials.
